

March 31, 2017

Regarding: State of Maryland V. John Doe
Case Number: 1G67832000

Good afternoon Your Honor:

This letter is a community impact statement on behalf of the Orange View Community Association.

The criminal activity of John Doe has caused us to be denied our safety and quality of life in the Orange View Community. Between the months of June 2016 until December 2016, Mr. Doe burglarized over twenty homes in our community, many of which were occupied at the time of the theft.

People should not be able to commit crimes like this and get away with it. The emotional impact Mr. Doe caused on our community will be felt for years to come. Many residents have reported being unable to sleep at night, and are constantly afraid that someone will break into their residence while they are home. We don't want to be held hostage in our community.

Mr. Doe should be punished to the full extent of the law, and if you do mandate community service hours as part of Mr. Doe's sentence, we urge that it is fulfilled in the Orange View Community where the offense occurred. A clear message needs to be sent that crime will not be tolerated in the Orange View Community.

We thank you for your time, and appreciate your consideration of this statement during sentencing.

Sincerely

The Orange View Community Association
